ELEMENT² PRO SERIES DRUMS

The Next Evolution in Drums[®]

MDES2-6 shown in Argon finish

Element Professional Series drums represent the pinnacle in electronic drumming. Combining the 100% birch wood shell, Accu-Track sensors, and FRH head technologies. The sum of these "Elements" achieve a playing experience that has the feel and look of acoustic drums.

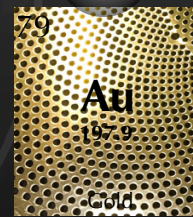

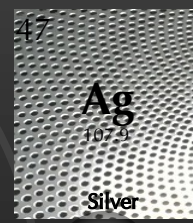

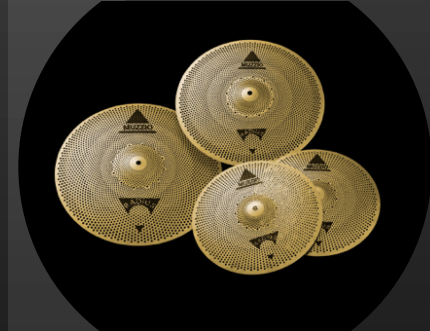

- 100% Birch Shells Laquer Wood Finishes
- Natural Response Drumhead
- Dynamic Multi Sensor System
- Compatible with Various Available Modules

MDES2-7 Shown in Xenon finish

RADIUS

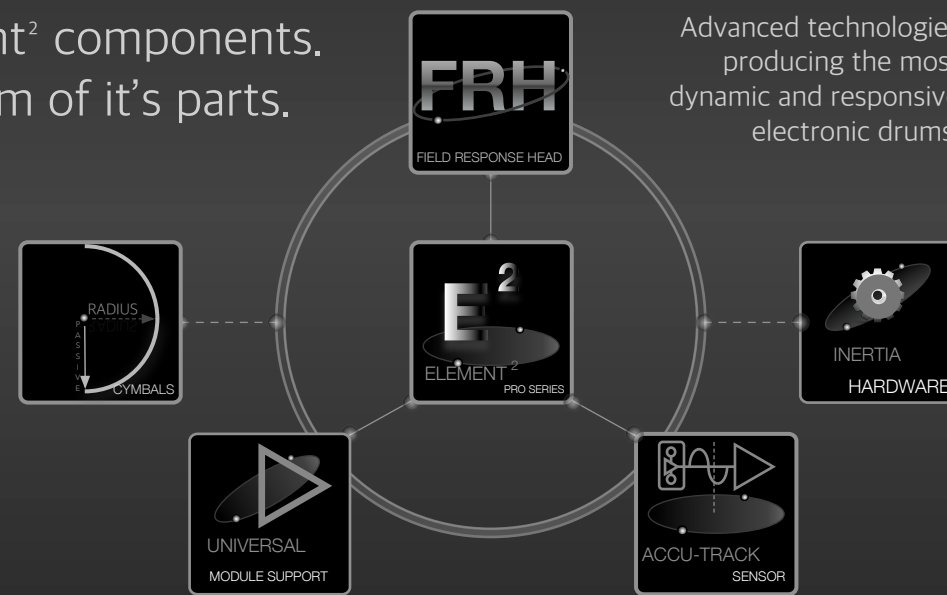

Radius Cymbals are made of real metals, so your feel and stick attack remains true. There is no approximating playing a real cymbal, because you are playing a real cymbal!

Radius Passive Cymbals are available in sets and singles. Various cymbal types are offered: Rides, Crashes, Hi-Hat sets, Chinas and Splashes

Radius Passive Cymbals have a 2 year warranty against manufactures defects

Element² components. The sum of it's parts.

Element Series electronic drums allow the drummer to explore beyond the obvious reason for playing electronic drums: reduced volume. New tonal palettes are available to the drummer that now can be played with nuance, dynamics and feel.

REAL FEEL • REAL PERFORMANCE • REAL DRUMS

INERTIA

Inertia Hardware is designed as an alternate to electronic drum racks. Using individual heavy stands with tri-mounting allows for fast easy setup, and the ability to mount drums, cymbals, modules are not sacrificed. Inertia is available in hardware packs, as well as individual stands.

HYBRID DRUMS

Adding the Hybrid Fusion drums to any acoustic kit expands the possibilities of available tones and musical situations. Hybrid Drums are available in sets with hardware & modules as well as individual drums.
